Professional Quality Products

Asfir's variety of products is the perfect solution for accessorizing the off-road vehicle.

ATL Winch Bumper

The innovative ATL winch bumper is designed and developed to replace the original bumper.

The bumper covers the winch, but is not attached to it. It has many openings to ventilate the vehicle and enables easy access to the winch for maintenance. ATL bumpers are characterized in low weight and in keeping close proximity to the vehicle's original contour lines.

Skid Plates

Quality skid plates for off road vehicles have one of the highest design, performance and finish standards in the world. Asfir offers various skid plates protecting the underbody parts of the vehicle such as front, gear, transfer and fuel tank. The skid plates are made of quality aluminum and are screwed to original holes in the vehicle.

Service openings in the skid plates enable servicing the vehicle without dismantling the plates.
